

Specialized Kinesiology College
OF SOUTH AFRICA

We are in unusual times, and we, the teachers of the Specialised Kinesiology College of South Africa, are adjusting to the new situation that we find ourselves in.

Traditionally Kinesiology was taught as an in-class option only. During lock down we took our courses online and have discovered that this way of learning has been very successful for the teachers and more importantly our students.

Going forward, we will continue to use our online learning platform (LP) and we will also have face to face teaching practice. Note that both are a must do.

In other words, students will now be requested to go through the information on the LP before attending class, as well as attending practice sessions for each unit. Our LP has video, written and demonstration content as well as short quizzes.

During the face to face teaching in class, we will assist you with any questions, demos and practical homework issues as well as repeat the course content in a shortened form.

Students will have the LP to refer to after class, to clarify any of the course information and to use as a resource for revision.

Please note that class teaching is essential and is a requirement to pass the course.

We have various price structures to suit any needs. You can pay up front in full and receive a substantial discount, or pay the deposit and pay a monthly amount (a little more expensive) or pay per unit without laying out the deposit. Please fill in the form [here](#) to request the latest prices.

Bryanston 2021 Gauteng, South Africa

To sign up for the course, the process is as follows:

- Sign up via the enrolment form and email it to info@kinesiologysouthafrica.co.za. (please go here to request the full course information and costs <https://kinesiologysouthafrica.co.za/course-information-section/request/>)
- Pay for the course - you can choose various options to suit your financial needs
- You will receive the notes that you have paid for via Postnet (please note that strict copyright rules apply)
- Send a WhatsApp to 0824966214 and you will then receive the information on how to sign up to the LP.
- You can then start reading through your notes in conjunction with the LP and work on your theory homework and the practical if you have a partner to work on.
- We will arrange zoom meeting with your group to go through any questions that you may have, and to clarify any of the information learned. If you are unable to attend a zoom meeting, it will be recorded and emailed to you and you are expected to go through the recording before the next meeting.
- You can enrol right now (no need to wait until the next intake)and work through the content via your notes and the LP, to get a head start. 😊

Below, we have provided the classroom teaching dates. A reminder that It is a requirement to have completed the units on the LP before the practice session. There are 3 options for classroom learning. You only have to attend each classroom learning once, however if you would like to re-attend on the next date, you would be most welcome. There is no charge for repeats.

Essentially, there are 2 opportunities to attend practice days during the year. This allows you to complete the course in your own time - over 6 months or longer than a year, it is up to you. If you would like to complete the course sooner than 6 months, contact us and we will see what we can arrange for you. We may add extra practice days if needed.

Specialized Kinesiology College
OF SOUTH AFRICA

Note that most of the units need to be completed in the order as stated below, especially the units BKP 101-106 and the Integration unit, as they follow on from each other in a logical order. BKP 107, and 110, RBT 201 & EMS 201 can be completed out of order. BKP 108 and BKP 109 are best done after completing BKP 106.
